Nov. 29

MISCELLANY.

THE BIBLE.....No. X.

From the Appendix to the Louisiana Report,
from which extracts were given in the last
number.

The report of the New York Bible Soci-
ety contains a list of more than twenty Bi-
ble Societies who had contributed from 50
to 500 dollars each to the printing of the
French Bibles, at New York, and of a num-
ber of other associations and individuals, a-
mounting in the whole to 5012 dollars.—
Besides which the Bible Society of Salem
and its vicinity has voted fifty dollars to aid
in this work.—The New York Bible and
common Prayer Book Society subscribed
for one hundred copies.—The Female So-
ciety of Geneva gave all their funds.—The
Poughkeepsie Female Bible Society vot-
ed all the money they had—and the Fe-
male Associations of Aurora and Genoa
threw in their mite. The Washington
county Bible Society, in a country but re-
cently settled had in the course of the first
year raised funds sufficient to enable them
to distribute 500 Bibles.—The Osego
County Bible Society, had distributed in
the course of the year, 340 Bibles and 200
New Testaments, and organized Bible As-
sociations in twelve towns, all formed on
the same plan; and acting as auxiliaries to
the parent institution.

A plan similar to the above is pursued by
the New Jersey Bible Society, who have
established in each county "a board of a

gents composed of a number of respectable
and influential members, to collect contri-
butions; and four special agents residing
in different parts of the state, who serve as
general depositories of the Scriptures, for the
purpose of furnishing them as they
are ordered by the managers and agents,
within their respective bounds.

The Bible Society of Salem and its vi-
cinity (in Massachusetts) had circulated in
the past year 320 Bibles—and from its for-
mation 260 Bibles and 90 New Testaments.

The Connecticut Bible Society had pur-
chased 2500 Bibles, sent 500 dollars to the
East Indies towards repairing the loss by
fire at Serampore, and advanced 500 dol-
lars to aid in printing the scriptures in
French.—They had circulated 943 in their
own State and sent for gratuitous distribu-
tion elsewhere 1579 more. From the or-
ganization of that Society they had distrib-
uted in Connecticut 5914 Bibles, and out of
the State 4227, making in all 10,141; be-
sides 100 New Testaments.

The Nassau Hall Bible Society having
in view at their formation, the supplying
with Bibles those who by sea and land were
fighting the battles of their country, had
sent a number on board our ships of war
and several to military camps passing thro'
Princeton. "How pleasant would it be to
behold the youth in all the seats of learning
throughout the land imbibing the example
of this highly commendable Society."

The Bible Society of Philadelphia had
struck off since their stereotype press was
put in operation, 14,125 Bibles and 3250
New Testaments. "Their edition of 6000
copies of the New Testament in French,
had been completed and a considerable num-
ber of them committed to the care of Mr.
Allis on his second missionary tour through
the southwestern region of this country."

This appendix contains a list of sixty
Bible Societies in the United States on the
30th November 1814.

The board notice with much pleasure the
establishment during that year of several
Female Associations, formed for the pur-
pose of contributing by their personal at-
tention, as well as by their pecuniary means,
to disseminate the word of God—and thus
observe—"It will doubtless be considered
an important acquisition to the cause of Bi-
ble Societies to have engaged in its active
duties, that sex so distinguished for their
benevolence and piety, and so peculiarly
qualified for dispensing with advantage the
offerings of this sublime charity among
the children of sorrow and of want."

They regret that more attention is not
paid by the Bible Societies in this country
generally to communicate to each other
through the medium of printed reports or
otherwise, such facts and observations con-
cerning the common object as might tend
to sympathize and improve their respec-
tive modes of proceeding, both with respect
to contributing to their funds, and circula-
tion of the Scriptures.

In noticing the tenth report of the Brit-
ish and Foreign Bible Society, (which has
been the subject of the preceding number)
they observe, "that they had printed or
contributed to the printing of the word of
God in fifty five different languages and di-
alects, which they enumerated; and that
there were in Great Britain upwards of four
hundred Bible Societies and branches, auxil-
iary to the parent institution, besides a num-
ber of smaller associations connected with
them.

In a note, they say that the printing of
the whole of the Chinese New Testament
had been completed, and the Missionary
Society in England had sent by the Rev.
Dr. Romeyn, two copies of it, printed
in Canton, to this country, one to the A-
merican Board of Commissioners for For-
eign Missions, and one to the Committee
of Missions of the General Assembly of
the Presbyterian Church in the U. States.

MURAT—no more.

We have before learned that after MURAT, the
Ex King of Naples, escaped from that kingdom, he
arrived in Paris, was disconcerted by his brother-
in-law LUIGIAPARTE and sought a retreat
in the South of France:—That after the second con-
quest of Paris by the allies, he fled over to Corfi-
ca, and found an asylum in the friendship of the
Mayor of Vefcor to one of the interior cities.—
That to this place many of the Generals and offi-
cers who served under him in Italy, repaired under
pretence of visiting the old commander; and that
these were joined by fugitives from Naples and
France.—That his conduct had arrested the at-
tention of the French government which had sent
a body of troops to capture him and his
adherents.—And that he had, in consequence
left Corfica, and embarked his band in six fel-
lucas.—in pursuit of which the British frigate
Albatross had sailed. This is a summary of our
previous advices.—Late arrivals from Italy have
furnished ample confirmation of the truth of this
spid expedition, his defeat, condemnation, and igno-
minious death.

ADVICES FROM LEGHORN.

FALE OF MURAT.

FLORENCE, (Italy) OCT. 24, 1815.
—The history of JOACHIM MURAT, from
his flight from Naples to his arrival in
Corfica, is well known; and also of his

having collected 5 or 600 followers in
the interior of that island.

On the 28th September he sailed from
Ajaccio with about 280 soldiers and 30
officers, of whom Generals Francefcheta
ti and Natelie were the most conspicu-
ous, and a few household servants.—On
the 1st October the flotilla was dispersed
in a violent storm; but on the 5th he de-
barked, with Gen. Francefchetti and about
50 men, from two of them, near
Pizzo, on the coast of Farther Calabria,
in the gulph of St. Eufemia, about 200
miles S. E. from Naples, and directed
his boats to sail along the coast. He pro-
ceeded to the great square of Pizzo, and
exclaimed to the astonished Calabrians,
"I am Joachim Murat your King—You
ought to know me—I am come to take posses-
sion of my States"

The momentary astonishment having
subsided, the people flew to arms, and
headed by Gen. Nunziane, Governor of
Calabria, attacked Murat and his band.
The latter made a stout resistance, but
were soon compelled to fly toward's Mon-
te Leone, a rocky point having had a
Captain killed, and all the suite of Mu-
rat wounded. They attempted to regain
the coast by precipitating themselves
down the rugged rocks and cliffs, and to
escape on board their launch, which
Murat, being untouched, had high effect-
ed, but the Calabrians, were so eager in
their pursuit, as to prevent his embarka-
tion, and made the whole party prison-
ers, and conducted them in irons and in
triumph to the castle of Pizzo. In the
mean time Murat's boats escaped, but
four of the six which left Corfica, have
been captured by the Neapolitan cruizers.

MURAT was forthwith brought before a
Court Martial, summoned by Gen.
MUNZIANTE, convicted of treason, and
sentenced to be shot, agreeably to the pro-
visions of his own criminal code which had
not been repealed. After sentence was
pronounced he requested to have a Con-
fessor sent to him, with whom he remain-
ed about an hour, and then underwent
the sentence near the gate of the castle,
on the 13th October. Thus terminated
the career of the first Lieutenant of NAPO-
LEON BONAAPARTE

The Neapolitan Government had ear-
ly information of the machinations of
MURAT, and had directed its cruizers to
be on the alert to intercept him; but
treated the affair with much contempt.
On the first tidings of his having landed,
Prince Casosa set out for Calabria; but
on the road he met a courier bearing the
news of the capture of the invader,
and returned to Naples; the most per-
fect tranquillity being restored in that
province.

In imitation of his brother-in-law,
MURAT brought with him reams of Pro-
clamations to excite the Neapolitans to
rebellion against their legitimate sover-
eign. But the day of such insinuation
has gone by, and, under Heaven, it was
reserved for the people of calumniated
Calabria to give a demonstration of the
fact.

Two other of MURAT's boats have
been taken, the crews of which say they
were told by him that he was bound to
Tunis, but that when off Cape Carbone-
ra, in Sardinia, they were commanded to
steer for Calabria where Joachim ex-
pected to find many partizans.

It is evidence of the confidence of
Ferdinand 4th in the stability of his reign,
that not an individual has been arrested
in consequence of the folly of MURAT.

Extract of a letter from a gentleman in Leghorn,

to his friend in London
"LEGHORN, OCT. 24. The Ex-King
MURAT made a landing near Naples with
about 200 of his followers, when they
were attacked by the King's troops.
Murat himself made prisoner, and the
whole of the rest slain. The next day,
or the following, he was put to death
while conveying to Naples—the Govern-
ment say by the people, but it is well
understood, it was by the secret order of
Government."

Of this Murat has exhibited proofs
of being either an idiot or a madman.
His Lady had negotiated for his safety
in Austria, and he had the Imperial pro-
mise of being respected as a nobleman;
and she had secured the where with to en-
able him to live as such;—yet we find
him embarking in a miserable expedition
with such contemptible means as to be
unable to resist the poor corps of the
country he invaded, and "dying as the
fool dieth."
